

Hart Brown

Chief Executive Officer
Future Point of View

 /hartsbrown

WHO IS HE?

Hart Brown is a world-renowned expert and speaker on simplifying complex strategies while implementing them in creative and innovative ways during crisis events where time is of the essence.

Hart is a unique combination of an executive who has managed acquisitions and IPOs, an ethical hacker, a futurist, and a technologist. He has provided services in over 50 countries to heads of state and executives during the turbulence of governmental transitions, one of the largest bankruptcies in US history, major events such as the World Cup and Olympics, and incidents of terrorism.

He is a thought leader and entrepreneur and the Chief Executive Officer at Future Point of View. Hart has been referenced in over 90 publications and news outlets such as *Reuters*, *USA Today* and *WIRED* as well as *Fortune* and *Forbes*. He is the author of *Future Forecasting: Mitigating Risk and Increasing Profit in a Chaotic World* and is the co-author of *Online and Under Attack: What Every Business Needs to Know to Manage Cyber Risk and Win Its Cyber War*. Hart has been honored by *405 Business* as a most influential leader.

He inspires audiences to think beyond what they see today, to question the status quo in a transformative way, and avoid learning by surprise in the future to create competitive advantages.
